Education

Bachelor of Technology in Computer Science and Engineering with Spec.in Bioinformatics 2021–2025
Vellore Institute of Technology, Vellore CGPA: 8.75/10

All India Senior School Certificate Examination (Class XII) 2021
D.A.V. Public School, Bilaspur 89.4%

Professional Experience

Project Engineer | Wipro Limited Sep 2025 – Present

- Built and enhanced 3+ AI agents using Python for enterprise workflow automation in WEGA project.
- Improved automation efficiency by integrating prompt orchestration and backend logic for scalable AI systems.
- Worked on production-level AI-driven solutions supporting internal business operations.

Trainee | Cognizant Jul 2025 – Sep 2025

Projects

Calories Burnt Prediction Using Machine Learning

- Built XGBoost regression model using 7+ physiological and activity features to predict calorie burn.
- Performed data preprocessing, feature engineering, and model optimization improving accuracy.
- Achieved high model performance using hyperparameter tuning and cross-validation techniques.
- Tech Stack: Python, XGBoost, Scikit-learn, Pandas, NumPy.

Medicare Web App | Medicine Booking Application

Webapp

- Developed full-stack MERN application serving 10+ medicine products with real-time ordering system.
- Implemented JWT-based authentication system improving security for user login and sessions.
- Built 4+ core modules including cart, checkout, order tracking, and user profile management.
- Managed a catalog of 10+ medicine listings.

Certifications

- [Google Cloud Computing Foundation Program](#)
- PL/SQL Certification
- [Coding Ninjas – C++ Advanced Coding Course](#)
- [MERN Full Stack Internship Program](#)

Achievements

- Winner – Wipro internal hackathon for AI-driven Text-to-Speech system
- Published patent for secure AI-based communication system (FortiChat)
- Secured 7th rank in Code Run Seek coding competition
- Solved 500+ Data Structures and Algorithm problems across platforms

Technical Skills

Programming Languages: Python, JavaScript, C++, C, SQL, PL/SQL

Artificial Intelligence & Machine Learning: Agentic AI, Prompt Engineering, LLM Integration

Data Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Feature Engineering, Data Visualization

Web Development: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

Tools & Platforms: Git, GitHub, Google Cloud Platform (GCP), Postman, VS Code, Jupyter Notebook

Core Concepts: DSA(500+ Problems), DBMS, Operating Systems, Computer Networks, OOP

Positions of Responsibility

Core Committee Member | Indian Society for Technical Education (ISTE), VIT Vellore
